Spring Meetings

My project at a glance

Martina Dramis

Engineering microbial cell factories for biomanufacturing chemicals and modified natural polymers suited for the formulation of high performance elastomeric nano compounds

Mirko Frigerio Verga

Biotechnological approaches to support sustainable agriculture

My PhD results and methodologies: tips and tricks

Marco Barreca

Tumour ecosystem and molecular dynamics in clinical triple-negative breast cancer depend on the chemotherapy regimen

Rosa Ranalli

Green urban area sustainability in light of pollinators

Chair: Pietro Butti, Sara Fumagalli
