

MERCOLEDI' 29 MARZO 2023

Ore 15.00 in aula U3-09

**Oppure su
WebEx**

<https://unimib.webex.com/unimib/j.php?MTID=m529a44701ac03ccb5a8c107fbdd4d76d>

Spring Meetings

My project at a glance

Serena Seminara

**Contribution of brain's resident immune cells to neurological disorders
in Wiskott-Aldrich syndrome**

Maria Chiara Barbera

**Desmoplastic response in pancreatic ductal adenocarcinoma (PDAC):
exploiting high throughput CRISPR screening to disrupt tumor-induced
stromal reprogramming**

Alessia Metallo

**Istaroxime effects on proliferation and intracellular Ca²⁺ dynamics in
pulmonary artery smooth muscle cells**

My PhD results and methodologies: tips and tricks

Marina Meroni

Methods to study the heterogeneity of intratumor drug distribution

Serena Petrella

**Identification of new therapeutic strategies for mucinous ovarian
carcinoma using CRISPR/Cas9 libraries**

Chair: Laura Formenti & Giulia Dellavedova
