

ARCH – Age-Related changes in Hematopoiesis

Online Workshop: Advanced Microscopy

June 23th, 2022 – 15.00-18.30 (CET)

- **15.00-16.00** Miguel Angel Peñalva, CIB-CSIC, Madrid: In vivo multidimensional (x, y, z, t, dual channel) fluorescence microscopy.
- **16.05-17.05** Oscar Llorca, CNIO, Madrid: Cryo-electron microscopy to determine the structure of macromolecules and how they work.
- **17.15-18.15** Daniel Lucas, Children's Hospital, Cincinnati: Anatomy of Hematopoiesis

Registrations at arch@unimib.it until June 17th

Link and instructions for connecting will be sent by e-mail a few days before the Workshop.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 813091
