

Dipartimento di Biotecnologie e Bioscienze – UNIMIB

Thursday, April 13, 2023, 4:30 p.m., BIOS building, room U3-08 / Webex

From bench to bench side

A scientific path through the author, the editor,
the publisher and the funder perspectives

Laura Galbiati

The Italian Foundation for Cancer Research (AIRC)

Abstract: Alternative careers in science are possible. I will introduce my personal career path through different professional scientific environments, in different countries and from different perspectives. I will talk about my experience in the publishing industry, as an author of research articles, as an editor and business developer with emphasis on the editorial process of review articles and an eye on the business potential of the scientific literature in the pharma industry market. I will talk more extensively about my current position back in Milan at Fondazione AIRC. From the funder perspective, I will give details on our Peer Review process and on the role of the Scientific Officer.

Host: Antonella Ronchi
