

LUNEDI' 10 GIUGNO 2019

Ore 10.00 - aula 2025

THE PhD JOURNAL CLUB

Nicola Tommasi

DNA from lake sediments reveals long-term ecosystem changes after a biological invasion

Ficetola et al., Sci. Adv. 2018;4: eaar4292

**A CLOSER LOOK INTO PhD PROJECTS:
METHODOLOGIES AND TECHNOLOGIES**

Pooja Jayaprakash

Improving organic acid tolerance of a non- *Saccharomyces* yeast, *Kluyveromyces marxianus* by adaptive laboratory evolution.

Luis Ferraz

Global transcription machinery engineering to improve *S. cerevisiae* tolerance to lignocellulosic based inhibitors

Fabio Rizza

A biased sampling approach to molecular dynamics simulations
