THE PhD JOURNAL CLUB

Luca Mastella

Engineering a riboswitch-based genetic platform for the self-directed evolution of acid-tolerant phenotypes

Hoang Long Pham et al., NATURE COMMUNICATIONS | 8: 411

DOI: 10.1038/s41467-017-00511-w

Lucia Morelli

Oral Nanoparticles Exhibit Specific High-Efficiency Intestinal Uptake and Lymphatic Transport

Kyoung Sub Kim et al., *ACS Nano* 2018, 12, 9, 8893-8900

<https://doi.org/10.1021/acsnano.8b04315>

A CLOSER LOOK INTO PhD PROJECTS: METHODOLOGIES AND TECHNOLOGIES

Gloria Campioni

The combination of different technologies improves metabolic data interpretation in preclinical breast cancer models

Dipartimento di Biotecnologie e Bioscienze - Università degli Studi Milano-Bicocca
Piazza della Scienza, 2 - 20126 Milano - <http://www.btbs.unimib.it/>
