THE PhD JOURNAL CLUB

Davide Panzeri

Peptides derived from in vitro gastrointestinal digestion of germinated soybean proteins inhibit human colon cancer cells proliferation and Inflammation

Marcela González-Montoya et al., Food Chemistry 242 (2018) 75–82
<https://doi.org/10.1016/j.foodchem.2017.09.035>

Sara Bertuzzi

Drug Screening in Human Cells by NMR Spectroscopy Allows the Early Assessment of Drug Potency

Enrico Luchinat, et al., Angew. Chem. Int. Ed. 2020, 59, 6535 –6539
<https://doi.org/10.1002/anie.201913436>

A CLOSER LOOK INTO PhD PROJECTS: METHODOLOGIES AND TECHNOLOGIES

Erika Casari

Alkaline gel electrophoresis and Southern blot analysis to study DNA Double-Strand Breaks resection

Daniele D'Arrigo

Different subpopulations of extracellular vesicles from biofluids: isolation techniques and heterogeneity

Dipartimento di Biotecnologie e Bioscienze - Università degli Studi Milano-Bicocca
Piazza della Scienza, 2 - 20126 Milano - <http://www.btbs.unimib.it/>
