

MERCOLEDI' 10 MAGGIO 2023

Ore 15.00 in aula U3-10

**Oppure su
WebEx**

<https://unimib.webex.com/unimib/j.php?MTID=m529a44701ac03ccb5a8c107fbd4d76d>

Spring Meetings

My project at a glance

Elena Bernasconi

Advanced biomaterials engineered for the production of sustainable compounds

Elisa Toini

Phylogenetic analysis for research of plant active compound

Giulia Ghisleni

Host-microbe interactions in the built environments: new approaches for a sustainable urban regeneration of Universities

My PhD results and methodologies: tips and tricks

Alessandro Marchetti

Marine polysaccharides exploitation by Antarctic glycoside hydrolases

Giuseppe Silvestri

Insights from high performance computing-based simulations: the anion conduction in the bacterial fluoride channel Fluc

Chair: Thomas Vernay
