

MERCOLEDI' 31 MAGGIO 2023

Ore 15.00 in aula U3-10

**Oppure su
WebEx**

<https://unimib.webex.com/unimib/j.php?MTID=m529a44701ac03ccb5a8c107fbdd4d76d>

Spring Meetings

My project at a glance

Alice Italia

**Study on the impact of Toll-like Receptor 4 (TLR4)
modulation in rare inflammatory-fibrotic diseases**

Maddalena Bracchi

**Mimicking extracellular matrix (ECM) features for meniscal
regeneration: from biomolecular signatures to biomaterials design.**

My PhD results and methodologies: tips and tricks

Mirko Zago

**New perspectives for a formulation company: from
blending to sustainable chemical manufacturing.**

Beatrice Negrini

**Investigating zebrafish (*Danio rerio*) development and
behavior to assess the hazard of antimicrobial CuO
nanoparticles**

Chairs: Giulia Motta and Giulia Tomaino
