

Dipartimento di Biotecnologie e Bioscienze – UNIMIB

## ALUMNI BICOCCA CHRISTMAS SEMINARS

### ***"Microglia-dependent development of cortical GABAergic circuits"***

**Mercoledì 18** dicembre, ore 14, aula U1-11

**Lorenzo Gesuita**, PhD student, Laboratory of Neural Circuit Assembly, Prof. Theofanis Karayannis, Brain Research Institute, University of Zurich

### ***"A deep dive in the brain: live imaging reveals how stem cells generate new neurons"***

**Venerdì 20** dicembre, ore 10:30, aula U3-06

**Sara Bottes**, PhD student, Prof. Sebastian Jessberger's lab, Laboratory of Neural Plasticity, Faculties of Medicine and Science, Brain Research Institute, University of Zurich, Switzerland

### ***"Face the tooth - an unconventional model for the study of development, regeneration and evolution"***

**Venerdì 20** dicembre, ore 11:30, aula U3-06

**Pierfrancesco Pagella**, Orofacial Development and Regeneration, Institute of Oral Biology, University of Zurich, Switzerland

Ospite: Silvia Nicolis e Antonella Ronchi
