

MERCOLEDI' 12 APRILE 2023

Ore 15.00 in aula U3-07

**Oppure su
WebEx**

<https://unimib.webex.com/unimib/j.php?MTID=m529a44701ac03ccb5a8c107fbdd4d76d>

Spring Meetings

My project at a glance

Chiara Giustra

Development of nutraceuticals products: a metabolomic analysis for the identification of bioactive molecules using green extraction techniques

Laura Beretta

Development of an array of secondary assays for the selection and validation of true-positive hits identified in screening campaigns

My PhD results and methodologies: tips and tricks

Pietro Butti

Synthetic biology tools for CRISPR-based genome editing in *Saccharomyces cerevisiae*: pCEC-red and beyond

Vittorio Senatore

Ethylene Glycol as a potential carbon source in yeasts

Chair: Federica Barbugian and Marta Simonetti
